

Dear Climbing Facilities,

The CEC and the National Pandemic Taskforce continues its efforts to support the climbing community. We know you are hard at work creating your facility's reopening strategy, and we wish to be your partner through these difficult times.

COVID-19 PANDEMIC UPDATE #4

Guidance Document

Reminder that the [CEC Guidance Document](#) is available, as well as a worksheet to help you create your risk mitigation strategy. The document is currently under translation, and will soon be available in French.

Pandemic Q&A

The CEC and its Taskforce [has published a Q&A](#) to help the climbing community in understanding the challenges we all face. If you have additional questions you'd like to get answers on, or if you believe some topics could be clarified for the community, please send us an email and we will add your question to the post.

Marketing Tools

We have published [a first series of marketing designs](#) you can use in your facility. These includes physical distancing stickers, hand washing signs, and COVID-19 climber etiquette. These designs have been produced in English and French, and in different formats. Please don't hesitate to download and print locally to use in your facility.

We aim at producing more marketing tools. Let us know what would be helpful to your gym [through this form](#).

As always, please don't hesitate to reach out should you have any questions or comments.

Sincerely,

Christiane Marceau
